NURSE PRACTITIONER POLICY

Our approach: Northeast Texas Neurology Associates (NETNA) uses a team-based approach to provide timely, high-quality neurological care. Patients may be scheduled with a nurse practitioner as part of this approach.

ABOUT NURSE PRACTITIONERS

A nurse practitioner is an advanced practice registered nurse who has completed graduate-level clinical education and specialized training. The nurse practitioner at NETNA is licensed by the Texas Board of Nursing and provides care within the scope of Texas law.

WHAT A NURSE PRACTITIONER MAY DO

- Obtain a medical history and perform an examination
- Evaluate neurological conditions
- Order and review laboratory tests, imaging, and other diagnostic studies
- Continue treatment plans initiated by Dr. Jetter
- Prescribe medications as authorized by Texas law
- Provide education, follow-up care, and referrals

TEAM-BASED CARE

Our nurse practitioner works collaboratively with Dr. Jetter and follows the treatment plan initiated by Dr. Jetter.

Acknowledgment: By accepting an appointment with a nurse practitioner, the patient acknowledges that the nurse practitioner may evaluate and treat the patient within the nurse practitioner's authorized scope of practice.
